About Sanguine Logistics

Sanguine Logistics Pvt. Ltd. was established with a singular objective: to deliver transparent, compliant, and highly efficient third-party logistics (3PL) solutions for businesses worldwide. Over the past 15 years, we have grown into a multi-modal logistics partner, managing complex import and export operations across all international sea and air corridors.

As an ISO 9001:2015 certified company and an AEO-certified Licensed Customs House Agent (CHA), our foundation rests on strict adherence to global trade laws, procedural precision, and zero-compromise documentation accuracy.

But the company has always been built around one simple idea:

Understand the customer's requirement before deciding how to move the cargo.

The Beginning

We started in a small 290 sq. ft. space in Chennai with big ambitions, youthful energy and a determination to do right by every client.

Years later, that same spirit remains at the heart of Sanguine Logistics — now strengthened by experience, knowledge and a team of young professionals guided by seasoned industry veterans.

THE PEOPLE BEHIND EVERY SHIPMENT

One team, from enquiry to delivery

Sanguine Logistics is a close-knit team of young professionals guided by seasoned industry veterans: Customs, documentation, operations, transport and warehousing specialists who work as one unit on every shipment. The people who quote a movement are the people who clear it, move it and keep the customer informed, so nothing is lost between departments.

4.8 ★★★★★

Rated by our customers on Google

“Young and energetic team providing Excellent service by the team at all the levels across import and export in both clearance and forwarding platforms.”

— Mohan R, Google review

OUR APPROACH

We Understand That Every Shipment Is Different

A shipment may look simple on paper. But behind every shipment are deadlines, documentation, Customs requirements, transportation arrangements, cargo handling, coordination and, sometimes, unexpected challenges.

We begin by understanding what the customer actually needs. This practical approach has helped us build long-term relationships with customers and logistics partners.

- 01 What is the cargo?
- 02 Where is it coming from?
- 03 Where does it need to go?
- 04 What are the dimensions and handling requirements?
- 05 What Customs or documentation requirements need to be considered?
- 06 What could cause a delay?
- 07 What can we do to make the movement easier?

HOW WE WORK

From Understanding to Ownership

01

Understand

We begin by understanding the shipment and the customer's actual requirement.

02

Plan

We identify the logistics, Customs, handling and transportation requirements.

03

Coordinate

We bring the relevant teams and service partners together.

04

Communicate

We keep the customer informed through the important stages.

05

Own

We stay involved and focus on keeping the shipment moving.

WHY CHOOSE SANGUINE LOGISTICS

One Shipment. One Team. One Clear Line of Communication.

We believe customers should not have to keep calling different people to find out where their shipment stands. For every shipment we handle, our operations team stays connected with the customer throughout the movement.

From pickup and documentation to Customs clearance, transportation and delivery, important updates are shared with the customer at each stage. This gives the customer better visibility, quicker communication and one team that stays accountable for the shipment.

- 01 Understand the requirement.
- 02 Coordinate the movement.
- 03 Keep the customer informed.
- 04 Take ownership.

BUILT AROUND COMPLIANCE

Experience matters. Compliance matters more.

Sanguine Logistics operates as a licensed Customs Broker and is AEO certified. Our approach to Customs and documentation is built around proper processes, accurate information and compliance with applicable requirements.

Our ISO 9001:2015 certification further reflects our focus on structured processes and consistent service.

We believe that good logistics is not about taking shortcuts. It is about knowing the process, preparing correctly and doing the job right.

AEO Certified

Licensed Customs Broker

ISO 9001:2015 Certified

Sanguine Logistics operates under its own Customs Broker licence and handles import and export Customs clearance across India's ports, airports and land Customs stations.

OUR VISION FOR THE FUTURE

Our goal is to become a global market player. We strive to provide support to clients, create value for shareholders, and offer growth opportunities to our employees. At Sanguine Logistics, we aim to be a crucial part of your business success story.

Our Core Values

Uncompromising Compliance

Indian customs rules and global trade policies are continuously changing. We maintain an up-to-the-minute understanding of notifications, trade agreements, and statutory guidelines to safeguard our clients from delays or penalties.

Total Transparency

Honest communication and clear cost structures. We believe in building long-term trade relationships through ethical operations.

Customer-Centric Innovation

Combining human expertise with digital tracking technology to make logistics management effortless for our partners.

The values we have lived since day one

- Owning our words and actions
- Pursuing excellence in our services
- Teamwork to solve problems
- Open, honest, and frequent communication

Logistics Built Around Your Cargo

Not every shipment needs the same solution.

Our services are designed to work independently where required and together when the movement demands a more complete solution.

01

Freight Forwarding (Ocean & Air)

Ocean and air freight solutions for imports, exports and project movements, with coordinated handling from origin to destination.

02

Door-to-Door Logistics Services

One coordinated logistics movement covering the key stages from pickup to delivery.

03

Project Cargo, Break Bulk & Over-Dimensional Cargo (ODC)

Planning and coordination for heavy, oversized, out-of-gauge and specialised cargo that requires a more carefully planned movement.

04

Warehousing & Inventory Management

Chennai-based warehousing for storage, cargo handling and inventory requirements, with short-term and long-term options.

05

Customs Brokerage & Clearance

Our own Customs Broker licence and AEO certification support compliant and well-managed import and export Customs clearance in India.

06

Transportation

Reliable movement of cargo between ports, airports, warehouses and final destinations through our operational network.

07

Marine Insurance

Comprehensive marine transit insurance coverage options for ocean, air and inland road movement.

08

Regulatory Consultation & Trade Advisory

Guidance on statutory requirements, duty optimisation and process audits, drawing on 15 years of CHA experience.

Tell Us What You Are Moving.

Give us the details you have. Our team will help identify the logistics requirements.

- 01 Cargo type.
- 02 Origin.
- 03 Destination.
- 04 Dimensions or weight, where applicable.
- 05 Timeline.
- 06 Any special requirement.

Experience across specialised and industrial shipments

Our work has taken us across different cargo categories and industries. We do not claim to handle everything. We focus on the types of cargo where our team has practical experience and can add genuine value.

Medical Devices & Equipment

More than a decade of experience supporting the movement of medical equipment and devices into and out of India.

Machinery

New machinery, second-hand machinery, heavy machinery, industrial machinery, factory equipment and boilers — with project logistics and ODC/OOG support where cargo is large or specialised.

Paper

Strong experience in paper imports and related logistics handling.

Furniture

Import and export movement of furniture with coordinated Customs clearance and cargo handling.

Infrastructure & Construction

Logistics support for infrastructure, construction and related project requirements.

Engineering & Manufacturing

Machinery, industrial equipment and other cargo associated with engineering and manufacturing operations.

Automotive

Automotive and related industrial cargo requirements, including machinery, equipment and specialised movements.

Specialised Cargo

Project cargo, break bulk, heavy lifts, ODC, OOG and heavy machinery — where cargo needs additional planning.

BUILT FOR THE CARGO THAT NEEDS EXPERIENCE

Project Cargo & Break Bulk

We handle heavy, oversized and specialised cargo, including machinery, factory equipment, boilers and other project-related shipments. Our experience includes cargo movements of around 40 tonnes, along with ODC, OOG and break bulk requirements.

That is where experience matters.

WAREHOUSING

15,000 sq. ft.

in Chennai

Our own 15,000 sq. ft. warehouse in Chennai gives us the space and operational capability to receive, store, handle and release cargo as required. From goods-in and goods-out to inventory handling, devanning, palletisation and distribution support, our warehouse forms an important part of our wider logistics service.

Strong Connections. Reliable Execution.

With our India-based operations, Customs Brokerage capability, warehousing, transportation network and experience across specialised cargo, we support overseas freight forwarders and logistics companies looking for a dependable partner in India.

550+

Verified freight forwarders

100+

Countries covered

600+

Cities the network reaches

Our India Network

Why Partner With Sanguine?

Responsiveness

When a shipment needs attention, questions need answers quickly. We aim to remain accessible and responsive to our partners.

Practical India Knowledge

Our experience with Indian Customs, ports, transportation and local logistics helps overseas partners navigate the India side with greater confidence.

Operational Capability

We combine forwarding, Customs, warehousing and transportation support so that partners can coordinate multiple India requirements through one team.

Clear Communication

When there is an update, we communicate it. When there is an issue, we address it. When something needs attention, our team stays involved.

Looking for an India partner? Let's explore how we can work together.
